

Finding your Dream House

The purpose of this activity is to manifest your dream home by diving deep into the world of online real estate, using the online listing service Zillow. This activity sparks student creativity and puts their real estate knowledge in action!

Part 1: Put Together A List

Students can work in groups of 2 or individually. Each student/group should choose properties that they believe would be a great deal based on the property's location, size, price and future growth & resale value. Students should use the Zillow website or app to research the information for the chart below.

[illegible]

Part 2: Rank Your List

Students should rank the houses from the chart above in a ranking scale of 1-10. Students should provide explanations for the choices that were made .

Rank	Property	Explanation
1.		➤
2.		➤
3.		➤
4.		➤
5.		➤
6.		➤
7.		➤
8.		➤
9.		➤
10.		➤

Part 3: Discuss Your Findings

Students should discuss their findings with the rest of the class. Now that the properties are ranked and explained for their ranking students should be able to confidently share their property findings and reasons to the class.
