

# Top Investor Strategies

## MODULE 6: LESSON GUIDE

For this module we will be discussing the top investors in the world and their different approaches to managing their wealth. These investors all have different views and strategies on how they invest and this can be a great way to draw your own plan of action towards investing. There are 11 unique investors who all have done tremendously well for themselves and their strategies in this module.

**Time Required:** 60-90 minutes
